

# JASMIN L. TANYAG

Maragondon, Cavite | tanyagjasmin@gmail.com | +639926339552  
linkedin.com/in/jasmintanyag | https://github.com/jasmintanyag

A second-year Computer Engineering student with a developing background in programming languages such as Python and R, along with tools including GitHub, Microsoft Office, Visual Studio Code, and AutoCAD. Possesses basic knowledge in electronic circuits, circuit design, and computer-aided drafting (CAD), combined with strong analytical abilities and a keen interest in continuous learning and technical growth. Seeking a summer internship to apply academic knowledge in real-world settings, gain industry experience, and contribute to meaningful and innovative projects while building professional skills.

## Academic Projects and Experiences

### Whack-a-Virus Game (Game Development, Python)

- Developed a Whac-A-Mole-style game with virus-themed gameplay, real-time scoring, and timer-based mechanics.
- Implemented random spawning, click detection, and sound effects to enhance interactivity and user engagement.
- Technologies:** Python, Turtle Graphics, Pillow (PIL), Game Development, Event-Driven Programming

### Engineering Data Analysis (R)

- Performed statistical analysis and data visualization on engineering datasets using R.
- Applied data cleaning, transformation, and exploratory analysis to generate actionable insights.
- Technologies:** R, Data Visualization, Statistical Analysis, Data Cleaning, EDA

### Computer Hardware, Networking, and Electronics Laboratory

- Performed BIOS/UEFI configuration and Windows 11 installation using bootable USB created with Rufus, including basic system setup and troubleshooting.
- Assembled and terminated RJ45 Ethernet cables and tested network connectivity using standard wiring schemes.
- Designed and tested basic transistor-based circuits such as LED switching, light/dark sensors, relays, and simple DC motor control.
- Technologies/Skills:** Windows 11, BIOS/UEFI, Rufus, RJ45 Crimping, Basic Electronics, Transistors, Sensors, Hardware Troubleshooting

### ICPEP-SE PUP Manila | Member

2024-Present

- Member of a national student organization for computer engineering students promoting academic excellence, technical skill development, and professional growth through seminars and workshops.

### Google Developer Groups on Campus (PUP Manila) | Cybersecurity Cadet

2026-Present

- Selected as a Cybersecurity Cadet in a student developer community focused on Google technologies, with training in cybersecurity fundamentals and modern security practices.

## Education

### POLYTECHNIC UNIVERSITY OF THE PHILIPPINES

Manila, Philippines

Bachelor of Science in Computer Engineering | GWA: 1.22

2024-Present

College of Engineering

*Relevant Coursework:* Object-Oriented Programming (Python), Programming Logic and Design, Computer Hardware Fundamentals, Fundamentals of Electronic Circuits, Computer Aided Drafting (CAD)

### BUCAL NATIONAL INTEGRATED SCHOOL

Cavite, Philippines

Science, Technology, Engineering, and Mathematics Strand | GWA: 98

2022-2024

Senior High School

Graduated With Highest Honors

Best in Work Immersion

## Skills

### Technical Skills

- Programming Languages:** Python, R
- Tools & Platforms:** GitHub, Visual Studio Code, Microsoft Office Suite, RStudio, AutoCAD
- Hardware and Engineering Skills:** Basic Circuit Design and Analysis, Electronic Circuits Fundamentals, CAD Drafting, Computer Hardware Fundamentals

### Soft Skills

- Problem-solving, Critical thinking, Adaptability, Team collaboration, Time management, Fast learner
